ORBIT

ORBIT

Portabici da gancio richiudibile con sistema di aggancio rapido, telaio e canale poggiaruota in acciaio ad alta resistenza. Dotato di sistema di ribaltamento a pedale e sistema antifurto. Adatto al trasporto di e-bike o fat bike. Disponibile in due modelli, nelle versioni con fanali a lampada tradizionale o LED.

Foldable towbar bike rack with quick-fixing system, high-strength steel frame and wheel-support channels. Equipped with foot-operated tilting system and anti-theft system. Suitable for transporting e-bikes or fat bikes. Available in two models, with traditional or LED tail lights.

MAIN FEATURES

Portabici con montaggio su gancio traino tramite leva a chiusura rapida. Regolazione semplice tramite chiave a brugola in dotazione e fissaggio sicuro grazie alla serratura antifurto integrata.

Bike rack with tow bar mounting via quick-release lever. Easy adjustment using the Allen key provided and secure fastening thanks to the integrated anti-theft lock.

Sistema di ribaltamento a pedale che permette di inclinare il portabici in avanti. Questo consente di accedere al baule dell'auto senza la necessità di rimuovere le biciclette dal portabici.

Pedal-operated tilt system that allows to incline the bike rack forward. This allows you to access the car trunk without the need to remove the bicycles from the rack.

Braccio fermatelaio versatile e compatibile con un'ampia gamma di telai, sia di forma regolare che irregolare. Pomello con serratura antifurto acquistabile a parte.

Versatile frame clamp arm compatible with a wide range of frames, both regular and irregular in shape. Knob with anti-theft lock sold separately.

Struttura in acciaio solida e resistente, capace di trasportare fino a 70kg di peso, ideale anche per e-bikes. Supporti poggia ruota ampi e compatibili con ruote di varie dimensioni, comprese le fat-bikes.

Solid and sturdy steel frame, capable of carrying up to 70 kg, also ideal for e-bikes. Wide wheel holders compatible with wheels of various sizes, including fat bikes.
